Cluster 10 (n = 395)

GO category (y-axis), top to bottom:
- ribosomal large subunit biogenesis
- ribosomal large subunit assembly
- ribosomal small subunit assembly
- translational elongation
- translational initiation
- protein folding
- ovarian follicle cell development
- snRNA pseudouridine synthesis
- maturation of LSU-rRNA
- assembly of large subunit precursor of p...
- regulation of neurogenesis
- negative regulation of Notch signaling p...
- Bolwig's organ morphogenesis
- anterior/posterior pattern specification
- spliceosomal snRNP assembly
- eye-antennal disc morphogenesis
- rRNA processing

x-axis: -log10(BH padj)
